St. Louis County COVID-19 Update

COVID-19 Testing

Getting tested for COVID-19 has never been more important during this pandemic than it is now. More than 260,000 COVID-19 tests have been conducted in St. Louis County. This crucial to our efforts to contain the spread of the virus and is a major factor in understanding the patterns of its spread.

This includes testing for those who are asymptomatic and anyone who had close contact with the public to get a test – even if they haven't had direct contact with someone who was positive. Testing is available to anyone who requests it. To make an appointment for a free test through St. Louis County Department of Public Health, click here or call 314-615-0574.

Drive-through testing is done at the following DPH clinics:

6121 North Hanley Road in Berkeley
4580 Lindbergh Blvd. in South County

Pop-Up Testing Locations

In partnership with St. Louis County Libraries, pop-up testing will occur at the following branches during the month of September. Testing is by appointment only and can be made online here. All pop-up testing locations are between the hours of 8:00 am and noon. A full schedule is available online at http://www.slcl.org/events.
